

I hope to continue to inspire women of all ages to push the boundaries of what they are capable of forever.

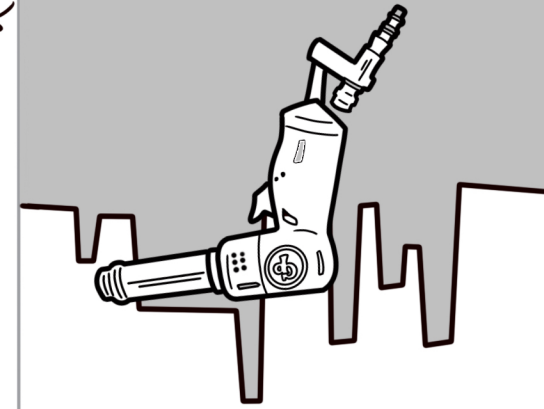

This marked the beginning of societal change for women in the workforce.

Cut here

When the war was over, some women returned to working in the home. Some women wished to stay in these jobs, but were forced to leave.

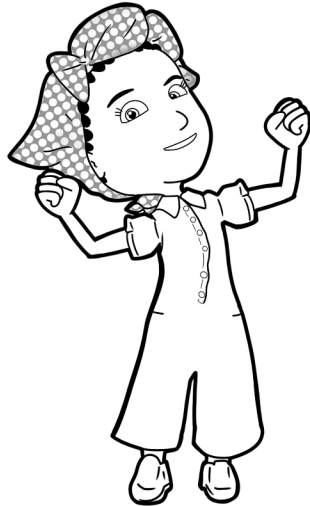

After men were drafted into the war, women took jobs in steel mines, shipyards, and factories making war supplies.

Rosie the Riveter American Hero

Hi there! I'm Rosie the Riveter! I was a cultural icon during World War 2.

I encouraged women to be involved in the war effort.
